- **Programming Languages:** Python, PHP, Javascript, Dart
- **Web Technologies:** [React.js](#), React Native, Next.js, JavaScript, jQuery, HTML, CSS
- **Frameworks:** Laravel, Odoo, Fast API, Flutter
- **Databases:** MySQL, PostgreSQL
- **Tools & Platforms:** Git, Postman, PyCharm, VS Code, Android Studio

PROFESSIONAL EXPERIENCE

Software Engineer , Proflujo Technology Pvt Ltd, Chennai

April 2022 – Present

- Lead and contributed to multiple internal and client-facing projects across diverse domains, including Audit, Blockchain, and Web Development.
- Delivered efficient and scalable solutions tailored to client requirements, ensuring high quality and on-time delivery.

- Collaborated with cross-functional teams to implement, test, and deploy robust systems using modern technologies and frameworks.
- Mentored junior developers and conducted code reviews to maintain best practices and coding standards.

Junior Programmer, Proflujo Technology Pvt Ltd, Chennai

September 2021 – March 2022

- Developed and maintained software systems, working primarily on internal projects such as employee management and leave tracking systems.
- Enhanced functionality and optimized existing systems for better performance and usability

PROJECTS

1. DWM - Daily Work Management System:

- Organization-wide daily work management system with org-chart, roles, and rolesheets. Built using Next.js for unified codebase and fast development.
- Org chart & role management with role-based permissions
- **Technologies:** Next.js, PostgreSQL

2. KCI (Kennel Club of India) Dog Certificate Application

- Developed an Odoo-based system for managing dog certification, pedigree tracking, and recordkeeping.
- Automated certificate generation and streamlined the management of data related to dogs and their owners.
- **Technologies:** Python, XML, PostgreSQL

3. SULUVA-POS (Point of sale system)

- Developed a **React-based Point of Sale (POS) system** integrated with an **Odoo backend** to handle multi-location business operations. The system manages **manufacturing, sales, and purchase workflows**, enabling businesses to streamline end-to-end operations in a centralized platform.
- Automated **sales and purchase order management**, including stock updates and vendor tracking.
- **Technologies:** React.js, Python (Odoo), PostgreSQL, XML

4. Task Management System (Mobile)

- Designed and developed a mobile application for task management, enabling users to create, assign, and track tasks efficiently.
- Focused on creating a user-friendly interface and ensuring performance optimization.

5. SBAS (Road Safety System Application)

- Built a road safety management system for Chola MS, enabling effective tracking of road safety incidents and ensuring compliance with safety protocols.
- Designed a user-friendly interface using React.js and implemented robust back-end functionality using Laravel and PHP.
- **Technologies:** React.js, Laravel, PHP, MySQL

PERSONAL STRENGTHS

- Hardworking, punctual, and committed to excellence.
- Quick learner with the ability to adapt to new technologies and environments.
- Strong communication and collaboration skills.
- Problem-solver with a consistent and focused approach.

PERSONAL INFORMATION**ADDRESS:**

Veppalampatti (Village), Katteri (Post), Uthangarai (Taluk), Krishnagiri District –
636902
